

Iwi/Māori Organisation Indicators

The Iwi and Māori organisation indicators bring together some important components of Iwi and Māori organisations being, and being seen to be, on the kaupapa. The content is largely sourced in the Organisational Tools section.

practice what we preach	relevance	on the kaupapa	governance	integrity
Percentage of members who are satisfied that they are able to influence the work of the organisation	Percentage of members who are satisfied the organisation is creating meaningful change for whānau, hapū and the iwi	Percentage of members who have confidence that the Iwi organisation has a clear vision that is relevant to the tribe	Percentage turnout for elections for members on the tribal governance entity	Percentage of membership that is satisfied the organisation is fiscally prudent
Percentage of waste sent for reuse, recycling and composting	Percentage of projects and programmes that have been developed and evaluated with hapū and whānau involvement	Percentage of members who are satisfied that the organisation conducts itself consistently with tribal values	Percentage of tribal members satisfied with the accountability of their representative on the governing board	Percentage of projects and programmes that undergo formal performance review process
CO2 reduction				Percentage of processes and procedures documented and made available to tribal members
Percentage of recycled printer paper.
